

INTERNAL MEMO: Engagement Retention Initiative

Classification: DO NOT SCROLL PAST

Team,

Average session length is up 41% since we removed the end of the feed.

Users report they 'only meant to watch one'. This is working as intended.

Autoplay stays on. The refresh gesture stays satisfying. Nobody gets bored.

If you have read this far, you watched every single reel. Congratulations.

Retention key:

Now put the phone down and go outside.
